

HOME RUN LS (LATERAL SPREAD) PERENNIAL RYEGRASS

Superior turf type variety with vibrant dark green colour. Perfect for a professional grade lawn.

Turf Type Perennial Ryegrass  100%

Home Run's vibrant, dark green colour creates a superior turf surface that will be the envy of the neighborhood. This variety establishes quickly and forms a dense, tight-knit turf with excellent overall quality. With improved disease resistance, it's the ideal choice for a healthy lawn.

Ideal Sowing Times:

Northern NSW, Queensland,
Northern WA

Autumn, Winter, Spring.

Victoria, NSW, ACT, Western
Australia, South Australia,
Tasmania

Autumn, Early Winter,
Spring.

This blend requires regular deep watering in Summer to stay green.

Germination:
Very Fast, 7-10 days

Fine leaf
(3mm)
Green colour

New Sowing: 5kg per 100m².
Oversowing: Use half sowing rate.

Lawn Sowing Instructions:

PREPARE YOUR SOIL

Clear the area of weeds and debris. Improve drainage by digging or aerating. Level the ground. If the soil is poor quality bring in lawn soil (sandy loam) from a local soil supplier.

FERTILISE

Apply starter fertiliser to the soil (up to 48 hours before or same day as sowing) and water it in. Use Landscape Range KickStart Fertiliser at a rate of 3kg per 100m². Water well.

SPREAD SEED EVENLY

Use the sowing rate recommended on the pack. Dividing the area and the seed into the same number of parts will help you spread them evenly. Gently rake to ensure good seed to soil contact.

WATERING

For the best outcome, maintain a consistently damp seedbed for 3 to 4 weeks using a fine spray to prevent seed movement. Avoid letting it dry out as germination will slow.

Lawn Maintenance Guide:

Fertilise twice in
Autumn and twice in
Spring

First mow: When well established at around 40-50mm height. Take off only the tips for the first few mows.

When fully established mow regularly and avoid removing more than one-third of the leaf at a time.

Avoid mowing during the heat of the day in summer to prevent stressing your lawn.
