

DROUGHT MASTER BLEND

A quick to germinate blend for budget friendly big projects

Turf Type Perennial Ryegrass **Annual Ryegrass** Bermuda Couch

Grow a tough lawn that's ready for every season. Fast to establish and boosted with 20% hardy Bermuda Couch for outstanding wear and drought resistance. The ideal, budget friendly choice for a resilient lawn that thrives year round.

Ideal Sowing Times:

Northern NSW, Oueensland. Northern WA, NT

Autumn, Winter, Spring.

Victoria, NSW, ACT, Western Australia, South Australia, Tasmania

Autumn, Early Winter, Spring.

This blend requires regular deep watering in Summer to stay green.

New Sowing: 4-5kg per 100m². Oversowing: Use half sowing rate.

Lawn Sowing Instructions:

PREPARE YOUR SOIL

Clear the area of weeds and debris. Improve drainage by digging or aerating. Level the ground. If the soil is poor quality bring in lawn soil (sandy loam) from a local soil supplier.

FERTILISE

Apply starter fertiliser to the soil (up to 48 hours before or same day as sowing) and water it in. Use Landscape Range KickStart Fertiliser at a rate of 3kg per 100m². Water well

SPREAD SEED EVENLY

the sowina recommended on the pack. Dividing the area and the seed into the same number of parts will help you spread them evenly. Gently rake to ensure good seed to soil contact.

WATERING

For the best outcome, maintain a consistently damp seedbed for 3 to 4 weeks using a fine spray to prevent seed movement. Avoid letting it dry out as germination will slow.

Lawn Maintenance Guide:

Fertilise twice in Autumn and twice in Spring

First mow: When well established at around 40-50mm height. Take off only the tips for the first few mows.

When fully established mow regularly and avoid removing more than one-third of the leaf at a time.

sales@aussielawns.com.au

Avoid mowing during the heat of the day in summer to prevent stressing your lawn.
