

SUPER GREEN CONTROLLED RELEASE FERTILISER

A controlled release of nutrients to feed your lawn over 10-12 weeks. Your Lawn: Greener, Thicker, Better.

N P K
22:3:4

Super Green's perfectly balanced NPK blend delivers up to 12 weeks of steady nutrition. This high efficiency, slow release fertiliser boost your lawn to grows a thicker, greener grass that naturally crowds out weeds while preventing runoff into our waterways.

SIZE 5kg, 20kg

How to apply a maintenance fertiliser:

PREPARE YOUR LAWN

Work out the area of your lawn (length x width). You need 3kgs of fertiliser for 100sqm.

FERTILISE

Apply the correct amount of fertiliser evenly to a dry lawn. Using Earthway fertiliser spreader is the best method. Apply your Fertiliser in two directions, dividing your fertiliser to ensure even coverage.

WATER WELL

Fertiliser needs to be watered in soon after application. Use enough water to irrigate the fertiliser prill into the thatch and off the leaf.

Lawn Maintenance Guide:

Fertilise twice in Autumn and twice in Spring

Mow regularly and avoid removing more than one third of the leaf at a time.

Avoid mowing during the heat of the day in summer to prevent stressing your lawn.

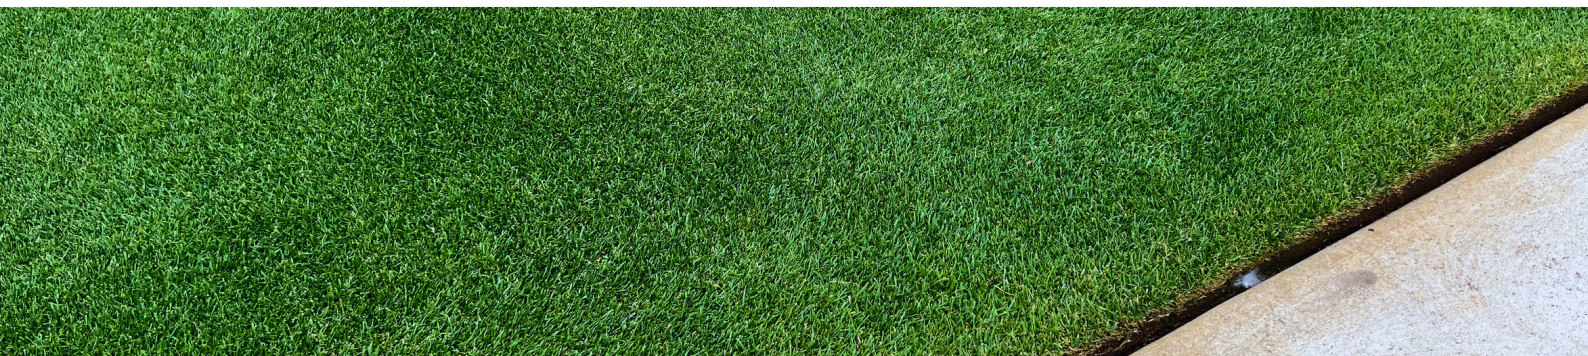

Application:

Rate

3kg/100m²

Recommended Use:

Recommended to use on all lawn seed varieties including Ryegrass, Fescue, Bluegrass, Bentgrass, Kikuyu, Couch, Buffalo and Zoysia.
