Revitalise your lawn with All Seasons Fertiliser. This granular formula feeds your lawn with essential nutrients lost seasonally. High in Nitrogen, it guarantees a great boost in colour, with visible results in just a few days. It's quick and easy to apply and is suitable for all lawn types.

**SIZE 2.5kg, 5kg, 20kg**

**Application:**

**Rate**

3kg/100m<sup>2</sup>

## Recommended Use:

Recommended to use on all lawn seed varieties including Ryegrass, Fescue, Bluegrass, Bentgrass, Kikuyu, Couch, Buffalo and Zoysia.

## How to apply a maintenance fertiliser:

### PREPARE YOUR LAWN

Work out the area of your lawn (length x width). You need 3kgs of fertiliser for 100sqm.

### FERTILISE

Apply the correct amount of fertiliser evenly to a dry lawn. Using Earthway fertiliser spreader is the best method. Apply your Fertiliser in two directions, dividing your fertiliser to ensure even coverage.

### WATER WELL

Fertiliser needs to be watered in soon after application. Use enough water to irrigate the fertiliser prill into the thatch and off the leaf.

## Lawn Maintenance Guide:

Fertilise twice in Autumn and twice in Spring

Mow regularly and avoid removing more than one third of the leaf at a time.

Avoid mowing during the heat of the day in summer to prevent stressing your lawn.
