Achieve a deep, emerald green lawn fast with Nitro Green Iron Boost Liquid Fertiliser. This professional fertiliser includes Iron and Manganese, delivering a rapid colour response and stronger, healthier turf. Expect an impressive green up within 5-7 days, perfect when your lawn needs to look its best for special occasions. Designed for quick nutrient uptake, it promotes rich colour and helps maintain a dense, high quality lawn.

SIZE 1 Litre

How to apply Nitro Green Iron Boost Liquid Fertiliser:

PREPARE YOUR LAWN

Work out the area of your lawn (length x width).

Apply 200 – 400ml / 100m² in 5 litres of water.

FERTILISE

Use a good quality sprayer for application. A 5-10 litre sprayer is ideal—look for one with a wand or fan nozzle and quality fittings. Spray lightly but evenly, allowing the product to dry on the leaf for foliar absorption.

TIMING

For maximum colour apply 5-7 days ahead of event to dramatically improve the colour of sports grounds, playing fields or turf areas.

REAPPLICATION

Reapply every 4-6 weeks for best results.

Recommended Use:

Recommended to use on all lawn seed varieties including Ryegrass, Fescue, Bluegrass, Bentgrass, Kikuyu, Couch, Buffalo and Zoysia.

Lawn Maintenance Guide:

Fertilise twice in Autumn and twice in Spring

Mow regularly and avoid removing more than one third of the leaf at a time.

Avoid mowing during the heat of the day in summer to prevent stressing your lawn.
